

"ABCD" Program

State Advisory Group Plan

Mission: To address policy, reimbursement, and implementation issues necessary to assure that a model system can be replicated for all Medicaid children.

Goals: (1) To gain an understanding of available child development services;
(2) To gain an understanding of model site business flow and "best practices";
(3) To support and advise on replication activities;
(4) To implement any necessary changes to the state plan;
(5) To obtain any necessary waivers from HCFA

Short-term plans- Representatives from key state agencies and North Carolina professional societies will meet:

- *to discuss vision/mission of advisory group;*
- *to discuss goals and objectives;*
- *to understand model activities;*
- *to discuss next "step activities" for advisory committee.*

Long -term plans- Representatives will meet on a frequency to be set from the initial meetings:

- *to review lessons from model activities;*
- *to recommend any necessary policy changes which support statewide implementation to Agency Directors*
