

## Team Time- Screening Tool Selection

Before you decide what direction you want to take with Social Emotional Screening, it is best to look at what your group is currently doing.

Are you currently using a screening tool? Yes \_\_\_\_\_ No \_\_\_\_\_

What is it that you like about your current method of screening? (regardless of whether or not you use a tool)

After the talk about screening tools, can you identify some things that you would like to change about how you screen for developmental delay?

Which of the tools presented would you consider implementing in your practice?

List advantages and disadvantages to your practice in using the tools listed above:

TOOL	ADVANTAGES	DISADVANTAGES

Based on your group discussion, which tool(s) do you choose to use in your practice?
