New Resources to Help States Improve Integrated Care for Children

In this month’s feature, you’ll discover a toolkit created to support states in developing comprehensive, coordinated and accessible health and housing services. The suite of tools includes budget dropdowns, case study examples, and more to help states develop workforce training programs, financing models, and inter-agency coordination. NASHP is pleased to share the Toolkit with you as a companion to our feature article on payment models for children.

Health and Housing Toolkit Offers Resources To New Administrators

This toolkit offers resources to help new governors and their transition teams understand the connections between health and housing. The suite of tools includes budget dropdowns, case study examples, and more to help states develop workforce training programs, financing models, and inter-agency coordination. NASHP is pleased to share the Toolkit with you as a companion to our feature article on payment models for children.

NASHP Creates Confidential Job Bank for State Leaders

NASHP has launched a new confidential job bank specifically for state level research analysts, policy analysts and support staff, with a state recruiter without search@nashp.org. NASHP seeks an entry-level research analyst for its Chronic and Vulnerable Populations Team. The position requires entry-level research analyst with at least 2-3 years of experience in public health data analysis.

NASHP’s State Health Policy Council (SHPC)

NASHP’s State Health Policy Council (SHPC) is the only national forum and voice of state health policymakers. SHPC members include health policy leaders from across the country who meet in person and online to discuss new ideas and strategies to improve health policy outcomes.

NASHP Issues 

NASHP Issues is a quarterly publication that provides in-depth and timely analysis of key state health policy issues. Each issue includes feature articles, policy briefs, and in-depth reflections on critical state health policy topics. The NASHP Issues website is also a valuable resource for policymakers and advocates.

NASHP Research Analyst – State Employee Job Bank

NASHP seeks an entry-level research analyst for its Chronic and Vulnerable Populations Team. The position requires entry-level research analyst with at least 2-3 years of experience in public health data analysis.

NASHP Medical Home Program

The NASHP Medical Home Program is a national initiative to promote the development of medical homes for vulnerable populations. The program provides resources, technical assistance, and guidance to states and other stakeholders to support the implementation of medical homes.

NASHP’s State Health Policy Council (SHPC)

NASHP’s State Health Policy Council (SHPC) is the only national forum and voice of state health policymakers. SHPC members include health policy leaders from across the country who meet in person and online to discuss new ideas and strategies to improve health policy outcomes.

NASHP’s Health Care Needs and Measurement Webinar Series

NASHP’s Health Care Needs and Measurement Webinar Series is a quarterly series of webinars that provide in-depth analysis of key state health policy issues. Each webinar includes a feature article, policy brief, and in-depth reflections on critical state health policy topics. The NASHP Issues website is also a valuable resource for policymakers and advocates.
