Featured Stories

- NASHP Announces New Staff for Center for State Health Care System Costs
- States Flex their Drug Purchasing Power to Capture Savings for Medicaid
- States are improving continuity of care after incarceration through innovative Medicaid strategies, including a transparent, pass-through payment model with pharmacy benefit managers, leveraging a single preferred drug list across managed care plans, and carving the drug benefits out of managed care. This drop-in explores three innovative Medicaid drug purchasing strategies.

Webinars

- States are leveraging their drug purchasing power through a new active-voice of their prescription drug benefits, moving from fee-for-service payments to performance-based contracting, managed care plans, and carving the drug benefits out of managed care. This drop-in explores three innovative Medicaid drug purchasing strategies.

NY Focuses on First 1,000 Days of Childhood Development

This month, NASHP features New York’s First 1,000 Days Preventive Pediatric Care Clinical Advisory Group. Learn how the Empire State is addressing preventive pediatric care for children and improving population health. View other resources on the NASHP State Resource Center, supported by the David and Lucile Packard Foundation. Submit new resources to elingham@nashp.org.

Thank you to our strategic partners.
