

# Maine

## 2019 CHIP Fact Sheet

For more than two decades, the Children’s Health Insurance Program (CHIP) has provided health coverage to children in families with low to moderate incomes. Each state has the option to cover its CHIP population within its Medicaid program, design and structure a separate CHIP program, or establish a combination program using both options.

### Key Highlights:

**Program type:** Maine operates a combination CHIP program called MaineCare.

**Number of children covered:** In FFY 2018, 25,219 children were covered by MaineCare. (Data from CHIP Annual Report Template System)

**State’s enhanced federal match rate\*:** For FFY 2020, the federal match is 86.16 percent.

**Participation rate:** In 2017, 94.3 percent of eligible children in Maine participated in either Medicaid or MaineCare. ([Urban Institute](#))

*\*The Affordable Care Act increased the federal CHIP match rate by 23 percentage points. The HEALTHY KIDS and ACCESS Acts maintained this increase through FFY 2019, and reduced it to 11.5 percentage points in FFY 2020. The federal CHIP match rate returns to states’ regular enhanced match rate in FFY 2021 and beyond.*

CHIP is currently funded through federal fiscal year (FFY) 2027 (Sept. 30, 2027) by the HEALTHY KIDS and ACCESS Acts. The Acts also extended the maintenance of effort (MOE) provision, which requires states to maintain eligibility standards that were in place in 2010 through FFY 2027. However, beginning in FFY 2020 MOE only applies to children in families with incomes at or below 300 percent of the federal poverty level (FPL).

### Eligibility

#### Modified adjusted gross income (MAGI) eligibility levels for CHIP/Title XXI in Maine (by age)

	Ages 0 – 1	Ages 1 – 5	Ages 6 – 18
<b>Medicaid expansion</b>	N/A	140 – 157% FPL	132 – 157% FPL
<b>Separate CHIP</b>	192 – 208% FPL	158 – 208% FPL	158 – 208% FPL

Source: Medicaid and CHIP Payment and Access Commission (MACPAC), MACStats: Medicaid and CHIP Data Book, December 2018, Exhibit 35: “Medicaid and CHIP Income Eligibility Levels as a Percentage of the Federal Poverty Level for Children and Pregnant Women by State, April 2018.” Note: Eligibility levels do not include the mandatory 5% income disregard.

### Coverage for Pregnant Women

Using CHIP funding, [states can opt](#) to provide coverage for pregnant women and/or services through the “unborn child” coverage option. Maine does not provide coverage for pregnant women through CHIP.

### Benefit Package

States that operate Medicaid expansion CHIP programs must follow Medicaid rules, providing all Medicaid-covered benefits to enrolled children, including the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services benefit. In separate CHIP programs, states have substantial flexibility in designing CHIP benefit packages within broad federal guidelines.

### Delivery System

Both Medicaid and CHIP programs use primary care case management (PCCM) and fee-for-service. All children are enrolled in PCCM unless they qualify for an exemption or exclusion.

## Premiums and Cost Sharing

Within federal parameters, states can set CHIP program premium and cost sharing levels. In total, any family contribution to the cost of coverage cannot exceed 5 percent of family income annually.

### Premiums and selected cost sharing in MaineCare, 2019

Family Income Level	Premiums	Office Visits	Inpatient Services	Prescription Drugs
157-166% FPL	\$8-\$16/month	None	None	None
>166-177% FPL	\$16-\$32/month	None	None	None
>177-192% FPL	\$24-\$48/month	None	None	None
>192-208% FPL	\$32-\$64/month	None	None	None

## Strategies to Simplify Enrollment and Renewals in Maine

Strategy	Used
Use of presumptive eligibility	No
Use of 12-month continuous eligibility	Yes
Use of express lane eligibility	No
Premium assistance	No

For definitions of strategies in this chart, see the Centers for Medicare & Medicaid Services December 2009 State Health Official letter [here](#).

## Other Characteristics of Maine's CHIP Program

Does Maine...	
Require a waiting period? <sup>1</sup>	Yes, 3 months
Offer a buy-in option? <sup>2</sup>	Yes (>213% FPL) <sup>3</sup>
Cover dependents of public employees?	Yes
Cover lawfully residing children without a five-year waiting period?	Yes

## Health Services Initiatives

States can develop Health Services Initiatives (HSIs) to improve the health of low-income children and youth by using a portion of their existing CHIP administrative dollars. After covering regular CHIP program administrative costs, states can use any remaining funds – within the 10 percent cap – for an HSI project. The federal share of the HSI project cost is funded at the state's CHIP match rate. States have used HSIs to support poison control centers, school health services, lead abatement efforts, and other unique prevention and intervention projects. Maine currently does not have an HSI.

## Quality Measures

States may report on a [core set](#) of quality measures for children. Maine reported on 15 measures for federal fiscal year 2018. Among the measures is access to primary care providers, listed below.

### Percentage of children and adolescents visiting a primary care provider, by age (FFY 2018)

	12 – 24 months	25 months – 6 years	7 – 11 years	12 – 19 years
<b>Maine</b>	96.9%	90.0%	93.8%	92.5%

Source: Department of Health and Human Services, 2019 Annual Reporting on the Quality of Care for Children in Medicaid and CHIP, September 2019. The measure is for the percentage of children ages 12 to 24 months and 25 months to 6 years who visited a primary care provider within the past year; and every two years for children ages 7 to 11 years and 12 to 19 years. Note: This includes both Medicaid and CHIP data.

<sup>1</sup> States may implement waiting periods up to 90 days in CHIP. A waiting period is the length of time a child must be uninsured before enrollment in CHIP.

<sup>2</sup> States can allow families with incomes above the upper income eligibility limit to pay the full cost to purchase coverage for their uninsured children through CHIP.

<sup>3</sup> Maine has a buy-in program that is limited to those who had been previously enrolled in CHIP; a child can participate for up to 18 months.
