

State Strategies to Measure Care Coordination
An Assuring Better Child Health and Development (ABCD) III Webcast
Supported by The Commonwealth Fund

June 24, 2013
3:30 – 5:00pm Eastern
(2:30-4pm Central; 1:30-3pm Mountain; 12:30-2pm Pacific)
Registration Link: <https://cc.readytalk.com/r/y62wpolppedu&eom>

Care coordination is a focal point of health care delivery reform initiatives across the country, yet there has been limited progress in measuring it between primary medical care and community service providers and for children. How can states and providers begin to measure this crucial element of care? Join speakers from CMS, NASHP, and two states (Oklahoma and Minnesota) that participated in the Assuring Better Child Health and Development (ABCD) III Initiative for a national webcast to address this question. Speakers will set the national context for pediatric care coordination measurement, highlighting relevant CMS activity, and share care coordination measurement strategies, results, and lessons learned from ABCD III. Although ABCD III focused on improving care coordination for children ages birth to three, the information shared will be relevant for measuring care coordination among other populations.

Agenda

Webcast Moderator: Jill Rosenthal, Program Director, National Academy for State Health Policy (NASHP)

3:30-3:40 pm	<p>Welcome</p> <ul style="list-style-type: none"> • Speaker introductions, review of webcast agenda, goals, and introduction to ABCD
3:40-3:50 pm	<p>The National Context for Care Coordination Measurement</p> <ul style="list-style-type: none"> • Why is measuring care coordination important? • What relevant measurement activities are the Centers for Medicare & Medicaid Services (CMS) supporting or pursuing? • Why is ABCD III an important contribution to the field? <p>Speaker: Karen Llanos, Technical Director, Division of Quality, Evaluation, and Health Outcomes, Center for Medicaid and CHIP Services, CMS</p>
3:50-4:00 pm	<p>Overview of ABCD III Care Coordination Measurement Findings</p> <ul style="list-style-type: none"> • What were ABCD III states' strategies for improving care coordination? • How did the states measure care coordination, and what were their findings? <p>Speaker: Carrie Hanlon, Program Manager, NASHP</p>
4:00-4:05 pm	<p>Brief Pause for Questions</p>
4:05-4:35 pm	<p>Spotlight on State Experiences Measuring Care Coordination: Minnesota and Oklahoma</p> <ul style="list-style-type: none"> • How did Minnesota and Oklahoma ABCD III teams measure care coordination? • What were their findings and lessons learned? • What are the implications of their measurement experiences, including applications for other populations? <p>Speakers: Glenace Edwall, Ph.D., Psy.D., Director, Children's Mental Health Division, Minnesota Department of Human Services Laura McGuinn, M.D., Associate Professor of Pediatrics, Child Study Center, University of Oklahoma Health Sciences Center</p>
4:35-5:00 pm	<p>General Q&A, Discussion and Wrap Up</p>
