

A Gift for Your Child!

Give your child the gift of regular checkups.

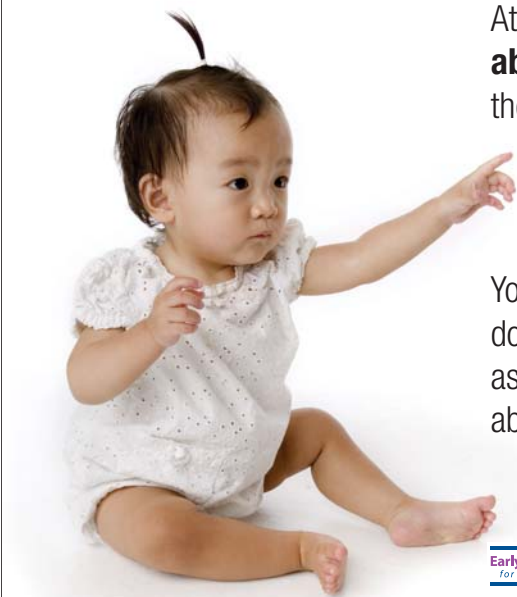

Every child is unique, and each child develops at a different rate. It's a good idea to talk with your child's health care provider about how your child is learning, feeling, and developing.

At certain check ups, you will be asked to **complete a questionnaire about your child's development**. The questionnaire will help you and the health care provider get a better idea about:

- What your child can do now and...
- What you can expect your child do in the future.

Your child's health care provider can give you ideas about activities to do with your child to help them as they learn and grow. If you are not asked to complete a questionnaire, ask your child's health care provider about completing one.

The ABCD grant program is supported by The Colorado Health Foundation and Kaiser Permanente Foundation. The views presented here are those of the author and not necessarily those of The Colorado Health Foundation or Kaiser Permanente, and the associated directors, officers, or staff of these two organizations.
