

Making an IMPaCT: State Models for Primary Care Transformation

North Carolina Infrastructure for Maintaining Primary Care (IMPaCT) Project
Supported by the Agency for Healthcare Research and Quality

Monday, December 2, 2013
1:00 – 2:30 pm Eastern

Registration Link: <https://cc.readytalk.com/r/liiroi8ydquw&eom>

Agenda

The national IMPaCT project supported North Carolina as one of four leading states in the field of practice transformation and primary care extension. Through IMPaCT, North Carolina partnered with four other states (Idaho, Maryland, Montana, West Virginia) to disseminate its primary care practice transformation strategies. Together these states formed the North Carolina IMPaCT Learning Community, and each state received individual and group technical assistance to help implement a practice transformation initiative. North Carolina, meanwhile, is completing its own IMPaCT project with a focus on further improvements to its primary care transformation model. Participants on this webinar will hear from the states in the Learning Community. Idaho will present on how it used the technical assistance offered through the project to devise a plan for primary care transformation that would become the basis of its State Innovation Model Design award. The other three states in the Learning Community will react to Idaho's presentation and recount how the NC IMPaCT project promoted their development in key areas of data infrastructure, stakeholder engagement, and practice support. Participants will also hear from North Carolina on its IMPaCT practice support improvements. At the end of the webinar participants will have the opportunity to ask questions of the speakers about their experiences with primary care transformation.

1:00 – 1:10 pm	Welcome & Introductions Call Moderator: Jill Rosenthal , Senior Program Director, National Academy for State Health Policy (NASHP)
1:15 – 1:30 pm	Building Models to Support Primary Care Transformation: Lessons from Idaho During this time Denise Chuckovich of the Idaho project team will discuss the state's planning process through its IMPaCT project, how it grew into its State Innovation Model (SIM) Design Award, and how lessons learned from North Carolina's experience is informing its SIM work. Speakers: Denise Chuckovich , Deputy Director, Idaho Department of Health and Welfare

<p>1:30 – 1:45 pm</p>	<p>Learning Community Reactions: How the IMPaCT Experience Affected Key Areas of Transformation</p> <p>During this time three North Carolina IMPaCT Learning Community state teams will recount how IMPaCT activities helped them advance their state primary care extension agendas in key areas. Montana will discuss development of its state data infrastructure to support practices, West Virginia will talk about its success in engaging state agencies and stakeholders, and Maryland will describe its use of practice facilitators and care managers to help practices transform into patient-centered medical homes.</p> <p>Reactors: Jonathan Griffin, MD, Family Physician, St. Peter’s Medical Group Nancy Sullivan, Assistant to the Cabinet Secretary, West Virginia Department of Health and Human Resources Niharika Khanna, MD, Associate Professor, University of Maryland School of Medicine</p>
<p>1:45 – 2:00 pm</p>	<p>Improving on a Nationally Recognized Model: North Carolina’s IMPaCT Project</p> <p>At this time Dr. Darren DeWalt, the Principal Investigator of the North Carolina IMPaCT project will discuss the North Carolina initiative. The state pursued two new strategies – one that focused on strengthening regional leadership, and a second that aimed to improve transitions between inpatient and outpatient settings. Dr. DeWalt will discuss North Carolina’s process for implementing these strategies, and some early results.</p> <p>Speaker: Darren DeWalt, MD, Associate Professor of Medicine, University of North Carolina – Chapel Hill</p>
<p>2:00 – 2:25 pm</p>	<p>Facilitated Discussion</p> <p>Webinar participants will have the opportunity to ask the presenters questions about their projects.</p> <p>Moderator: Jill Rosenthal, Senior Program Director, NASHP</p>
<p>2:25 – 3:00 pm</p>	<p>Wrap-Up</p>
